## Aircraft for Sale

Cessna Skylane 182RG, 1979

### Exterior

Modern Cessna paint scheme in very good condition.

### Interior

Original Cessna seats and trim panels in blue. Condition good for the year. Roof and window trim in very good condition with little sign of yellowing and cracking that are often evident in aircraft of its age.

### Location & Maintenance

The engine and propeller have been zero-time overhauled in 2010 just 90 operational hours ago to new tolerances by Nicholson McClaren. All the has done to a very high standard as can be seen in the under-cowling pictures. At the same time the aircraft has a complete restoration of the landing gear, flap rollers, elevator and aileron bearings. All hoses were replaced, magnetos, constant-speed unit and prop governor, oil cooler and other auxiliary equipment were replaced or overhauled, so the aircraft should provide, dependable, trouble-free service for years to come. The aircraft is on the UK Register and based in the Irish Republic in its own hangar on a private air strip.

### Comments

This is an opportunity to acquire an exceptional example of this fast, capable touring aircraft that has been maintained to a very high standard regardless of cost.

Email AirBASE for a copy of the Maintenance Cardex showing all mods and life items with their dates and times and **an additional PDF picture file.**

### Price & Availability

Presented for sale  
by AirBASE at...

**GBP £94,950 Euros no VAT**
